

个人简介

Professor Zhang obtained her doctorate degree from Department of Macromolecular Science in the year of 2005, then she joined East China University of Science & Technology. During 2012-2013, she visited Department of Biomedical Engineering at Cornell University. Her research interests focused on biomedical materials and biomass-based materials. Till now, she has published more than 60 SCI papers and hosted more than 10 projects.

研究方向

功能高分子

研究成果及主要发表文章
