

Department: School of Chemical Engineering
 Professional field: Chemical Engineering and Technology
 E-mail: liping_2007@ecust.edu.cn

Profile

Education

2006: PhD, Chemical Engineering, University of Porto, Portugal.

1988: MS, Chemical Engineering, Dalian University of Science and Technology, China.

1985: BS, Chemical Engineering, Dalian University of Science and Technology, China.

Academic Experience

2007-present: Professor, School of Chemical Engineering, East China University of Science and Technology, China.

1988-2002: Professor, Associate professor, Lecturer, School of Chemical Engineering, Shenyang University of Chemical Technology, China.

Research Field

The coupling process of separation and reaction, the basic theory and application of adsorption, the application of advanced simulated moving bed technology, the application of PSA, the separation of chiral drugs, the application of microbial leaching, the adsorption and capture of carbon dioxide, methane and organic volatiles.

Research results and selected published papers
