

Department: School of Chemistry & Molecular Engineering

Professional field: New energy materials and devices

E-mail: wjwu@ecust.edu.cn

## Profile

Wu Wenjun, male, PhD, associate professor, doctoral supervisor. In 2008, graduated from East China University of Science and Technology with a doctorate degree. 2016.03-2017.03, have finished my visiting scholar at the University of Edinburgh, UK. Our group mainly focuses on the development and application of related functional materials on carbon-based perovskite solar cells, dye-sensitized solar cells and supercapacitors. At present, 98 academic papers have been published in Solar RRL, ACS Applied Materials & Interfaces, Chemsuschem, Chemical Science, Carbon, Chemical Communication, etc for our research achievements with a certain internationally Influence.

## Research Field

Perovskite Solar Cells, Dye-sensitized Solar Cells, Supercapacitor

## Research results and selected published papers

1. L. Xu, Y. M. Li, J. J. Shi, N. Robertson, W. J. Wu\*, Q. B. Meng, H. Tian, Suppressing Shallow Defect of Printable Mesoscopic Perovskite Solar Cells with a N719@TiO<sub>2</sub> Inorganic-Organic Core-Shell Structured Additive, *Solar RRL*, 2020, 2000042;
